

We're on the road again!

Connecting expertise –
building solutions.

The GEZE product portfolio. Up close and Personal.

Make your appointment
with us now –
we're looking forward to
see you!

GEZE has been “on the road” since 2007 to present our most up-to-date products and solutions to you. After travelling hundreds of thousands of kilometres throughout Europe, the GEZE Showmobile has become a fixture in the event calendars of many distributors, installation companies and partners.

At roughly 7.5 metres long, 2.3 metres wide, and over 3 metres tall, the four tonne GEZE Showmobile is truly a show stopper. Compact, yet comprehensive, it is equipped with our current door, window and safety technology innovations and our building automation solutions.

We would like to invite you to get to know our GEZE Showmobile. Experience GEZE door, window and safety technology products. You can get to know our products and system solutions in all their diverse functions and designs “live” at your own site.

Of course, you can also book our GEZE Showmobile to appear at a training or promotional event.
